FAQ

They're not stupid questions, just stupid answers from us.

Will your packs work with URP or HDRP?

All of our packs are made with standard Unity shaders, so it's quite easy to upgrade them to the URP. Here is the video on how to do it:

https://www.youtube.com/watch?v=QsVmXpWxF_o&t

We also stored all materials and Volume Profiles in the

HDRP_PolyHalloweenPack.unitypackage and

URP_PolyHalloweenPack.unitypackage.

You can fix the materials by unpacking them.

For the HDRP, this is an excellent source of inspiration:

Can I use your assets with a different engine?

Yes, but we will not be able to support you.

Can I use your assets commercially?

Yes, as long as they are safely stored within your product and you are not reselling or redistributing them. Please carefully read this: [EULA and Terms of Service](#)
